

## Leica iCON Build Training Session @ MVS LANGLEY

You are invited to join us on **WEDNESDAY, OCTOBER 16TH** for an educational workshop to review the latest Leica iCON software and NEW Leica hardware that will be launched very shortly. The experts will be there to teach and guide you through the latest software and hardware releases from Leica. We will also be answering questions and helping you sort out workflow bottlenecks that might be slowing you down on site. Bring your questions and ideas for future software improvements if you have any as well.

*The workshop is starting at 10 am and runs until 3:00 pm.*

In lieu of payment for this training class, MVS asks you to bring a food bank donation of non-perishable food items and/or grocery store gift cards to the class with you that day. The dollar amount and contribution is 100% up to you to decide on as this is just our way of giving back to the community.

### Features

- *Extensive overview of the apps in iCON build & plus from basic how-to training to more complex functionality*
- *New features in the latest software and firmware releases*
- *Hands on Training with MVS support and Leica training manager*
- *Opportunity to check out the latest Leica hardware & AP20 Autopole*
- *Collaborate with industry peers and professionals*

We strongly recommend that if you have a Leica total station and tablet that you bring it, We will have a few systems setup for new users who do not already own their equipment.

Please RSVP to [jeffv@mvs.ca](mailto:jeffv@mvs.ca) by October 12<sup>th</sup> to confirm the number of attendees that wish to take part. Limited space is available – please ensure you will be attending if you RSVP for the workshop.
